# Manipulating Arrays

Part 2: Removing Elements

CSP

Removing Elements

- When an element is removed, all elements "shift" to the left.
- The App Lab function to accomplish this is `removeItem`.
- Here is the syntax of a call to the `removeItem` function:

```
removeItem (list, index);
```

An existing array variable

The index of the element to remove

Removing Elements

```
1: var myList = [34, 88, 7];
2: removeItem (myList, 0);
3: removeItem (myList, 1);
```

| 34 | 88 | 7 |

| 88 | 7 |

| 88 |

MUST be a valid index!
