# unit 1

One solution is to use words for names, like "dodger blue"

- <u>Advantage</u>: it's easy for humans to recall and use words
- <u>Disadvantage</u>: it's impossible to create/ remember 16,777,216 names

A second solution is to use decimal numbers for names, like
102          51          153
